

Lee M
Fitness Model

Our Lee is a perfect all-round fitness model, able to showcase underwear, sportswear and swimwear to perfection. His fitness journey started as a young semi-professional footballer, but a knee injury turned his attentions to the gym. Football's loss is the fitness modelling industry's gain! In addition to the gym, Lee cites active sports as his main hobby, including motorcycling, jet skiing and hiking, keeping him active, even on non-gym days. Lee says he is particularly proud of his arms and abs.
